SCHOOLS OPEN MONDAY

The 4,000 Limit Almost Reached in Attendance.

Average Monthly Pay of Women Teachers is \$55.88, That of the Men \$118. Percentage of Attendance for Whites is 91, for Colored Children 81.

The city schools will open to-morrow. Unusual preparations have been made because an increased number of scholars is expected and greater room and more facilities will be needed to care for them.

Many persons believe that there is a very great increase in the population of this city, and that, therefore, there will be a large percentage of increase in the number of pupils attending the public schools. There will be some increase, no doubt, but such a great increase occurred last year that a great increase this year would be phenomenal.

The total enrollment for last year was, according to the accurate and beautifully kept statistics of Mr. R. A. Dolan, superintendent, 3,861 pupils. The enrollment for the previous year was about 3,300. There was an increase of, say, 560. This increase of 17 per cent., in the enrollment of the pupils for one year, was due to the three new schools, which were completed and used for the first time, and to the fact that many pupils had been deterred from attending the public schools because of the lack of room and the condition of the old school buildings.

The city schools are more popular now than they have ever been since the system was inaugurated. That is proved by the statistics of the enrollment. The capacity of the schools is about 4,000.

The enrollment for last year almost reached that limit, while the attendance for the year was 3,143 for the year.

The percentages of the school population of 6,000 attending the city schools are, for white, 55; for colored, 45. The percentages of the population of the city are, for white, 55; for colored, 45. The average monthly enrollment for each teacher, that is, the average number of pupils to each teacher is 40.

There are 75 teachers in the public schools, of whom 62 are white and 13 are colored. Of the whites 7 are men and 55 are women; of the colored one is a man and 44 are women.

The average of monthly salaries, for the men is \$118, for women it is \$55.88. Teachers begin here at not less than \$50 a month. That is the lowest salary paid.

The colored people have petitioned for the use of the Queen street schoolhouse, abandoned last year as a white school. It has a capacity for 200 pupils and will, the petitioners aver, be of great benefit to the colored people who reside in that vicinity. The School Board approved the petition and sent it to the City Council, asking an appropriation of \$20,000 to pay the expenses of the school used for that purpose. The Finance Committee is considering the subject.

Brambleton School No. 1 will have another room added, the workmen are finishing the building now, and it will be ready, no doubt, soon after the schools open. This will accommodate 50 pupils.

Brambleton No. 2 is to have four additional rooms. The officials are negotiating for the work, but the bids of the contractors have been rejected because the bids called for an outlay greater than the appropriation.

Both of these schoolhouses have been improved by sanitary attachments. They have been fitted with an entirely new system of heating, lighting and ventilating. These new appliances, in the Brambleton Schoolhouses No. 1 and 2 make them equal in hygiene respects to the new schoolhouses of the city.

All the other schools of the city have been cleaned and repaired. They are in first-class order for the reception of the children who are to demonstrate what they will do with an education that is the pride of this city and State give to them free.

The expense of the schools is over \$500,000. It varies in amount because of repairs and extraordinary needs which occur. The accounts of the old wards are kept separate from the new wards, so that there are separate appropriations for Brambleton and Atlantic City wards. The appropriation for the four old wards is \$22,000, and the amount received from and the allowance by the State for last year was \$14,500.

The population increases the latter amount will increase, and, of course, the city Councils will increase the appropriation as the number of pupils increases.

Chesapeake Athletic Club.
A representative of the Virginian-Pilot visited the above named club last evening, and was surprised at the development it has made in the past few weeks. Mr. Jacobs was busy instructing the bag punching class in the art of striking that elusive pig skin, but courteously showed the scribe around his place in the front of the large hall which is used as the gymnasium. Mr. Jacobs has erected a fine hand ball court. Back of this is an eighteen-foot ring, where the manly art is taught. All along the sides of the room are hung dumb bells, Indian clubs, boxing and striking gloves and other gymnasium paraphernalia.

In the rear of the ring are the striking bags—five in number—both platform and suspended. After the different exercises have been gone through by the members of the club, they go to the dressing room. In the rear, where they are administered a cold sponge bath and a brisk rub down.

Mr. Jacobs proposes to give some interesting exhibitions during the coming winter. The membership is rapidly increasing. Mr. Jacobs is justly proud of his enterprise, which certainly should be successful.

A Sacred Duty to God and Man.
Go to church to-day, and go prepared with checks or currency, to aid our distressed fellow-citizens of Galveston. Envelopes will be distributed and collected at each service. In which contributions can be placed. Any one who, through oversight, may be unprepared with cash or check, can endorse name, amount and address at which to call for it, and the amount will be duly credited.

Stops the Cough and Works off the Cold.
Laxative Bromo Quinine Tablets cure a cold in a day. No cure, no pay. Price 25 cents. s-16-5t
